

## Pipette Stand

Drawell pipette stand can hold up to 6pc of pipettes. It is specially designed for single and multichannel models. It is made of polypropylene and polycarbonaterobust, stable due to its heavy base, strong resistance to aggressive chemicals.

## **Pipette Protection**

- Protects valuable instruments from shocks and contamination.
- Pipettes hang vertically to prevent liquids from running inside the shaft.

## **Comfortable Operation**

Its rotating head gives you an easy access to the pipette of your choice.

## Space Saving

Allows you to have a neat, tidy and organized work bench. Brand Pipette Stand
