# Automatic pH Analyzer

Features

1. Touch screen, back light adjustable, parameter setting.

2. Real-Time clock.

3. Higher efficiency: up to 40 sample solution in a single batch.

4. GLP data management: samples ID classification.

5. Reliable test: measurements traceable to raw data.

6. Compact design, highly optimize the test working room.

7. Automated electrode cleaning and blowing dry.

8. Durable and reliable aluminum alloy tray, easy to clean, corrosive-proof.

Conforms to standards of: GB/T 7573-2009

Application: Textiles, Leather samples/extraction solution

Working station pan view-Aluminum alloy

Specifications

pH range	-2-19.99pH (± 0.02pH ATC)
Calibration	1- 3 points, automatically
Measurement	automatically
Purified water refilling	automatically
Wastewater collection	automatically
GLP management	sample IDs setting
Temperature range	0 – 100.0 ℃(±0.5℃)
Data storage	2000 readings
Data export	PC/Flash Disk
Power supply	220V, 50Hz, 1000W
Meter size	78.0×42.5×45.5cm 26kg
