

DO10 Portable DO Meter Polarographic Type

Features

- 3.7" Color screen, user-friendly interface.
- Electrode adopts combination diaphragm cap which is very convenient to use.
Each DO electrode equips with three spare diaphragms caps and one bottle of DO inner solution.
- Data logging up to 3000 groups.
- Air compensation: automatic.
- Temp compensation: automatic.
- Equipped with a USB Type-C charging port, conforms with the EU new law.
- Ideal for use in harsh environments — IP57 Waterproof rating, silicone socket protector and grip cover protect the instrument from general impact.

Specifications

Measuring Range	0~20.00 mg/L(ppm) , 0~200.0 %
Resolution	0.01 or 0.1 mg/L
Accuracy	± 0.30 mg/L
Temp. compensation	0~45 °C automatically
Salinity compensation	0~45 ppt manually
Barometric compensation	0~200 kPa automatically
Data storage/content	3000 groups (Serial number, Mode, Measuring value, Temp, Date: Y/M/D/H/M)
Data export/Charging port	Type-C - USB
PC software function	GLP measurement management Two-level user management The user's operation history log Meter usage management Automatically /manually timing data storage
Power supply	Rechargeable Lithium battery × 1 (2000mAh)
Packing including	1. Meter × 1 2. POM DO electrode: DO01-2M-H × 1 3. DO refill solution: 30mL× 1 4. DO replacement sensor caps: 3pcs 5. USB Type-C Charger Cable× 1 6. Hard carrying case×1
