

DWGM-0.5B

Corrosion Resistant Diaphragm Vacuum Pump

Features

- No pump oil and no oil mist pollution
- High efficiency and low noise
- There are fixed pressure and adjustable pressure.
- It is small and easy to move
- Widely used in pharmaceutical, chemical, chemical, electronic and other industries

Specifications

Model	DWGM-0.5B
Maximum pumping speed	≥48L/Min
Ultimate pressure vacuum	0.098Mpa
Air inlet port	Φ6mm (Can be customized)
Pump head	Double pump head positive pressure type
Voltage regulation type	Bypass pressure relief
Maximum power	230W
Voltage	220V,50Hz
Ambient temperature	≤40°C
Noise	< 55dB
Product size	330*150*195mm
